ProdigyFrontier, is a Portuguese company that manufactures and sells the brand Tutti per Tutti Sport.

We specialize in Boccia (official) games, ramps, helmets and other equipment.

We have the collaboration of an extensive team, studying the best technologies in the production of different sports equipment, in order to achieve and deliver excellent quality.

In partnership with and monitored by special needs institutions, all our products are entirely made in Portugal.

Furthermore we perform consulting services in the field of disability, rehabilitation and the elderly that make it possible for your institution to have access to the most suitable materials with great conditions.

In the company facilities there is a permanent Boccia court, open to the community, so that the clients can test our products.

TUTTI PER TUTTI BOCCIA BALLS

SET T2020

SET ELITE

320,00€

Hand-made balls in synthetic leather, filled with polymer with anti-static properties, which maintains its characteristics between -40° up to +50°C. We have three types of hardness (Super Hard, Hard, Medium, Soft).

Their precise trajectory is due to its leather characteristics and good grip. Ideal for competition.

Set composed by 13 balls (6 blue, 6 red and 1 white), supplied with a comfortable cork backpack, with rigid removable interior with 15 alveolus.

SET NUMBER ONE

350,00€

Hand-made balls in synthetic leather, filled with polymer with anti-static properties, which maintains its characteristics between -40° up to +50°C. We have three types of hardness (Hard, Medium, Soft).

Set composed by 13 balls (6 blue, 6 red and 1 white), supplied with a comfortable cork backpack, with rigid removable interior with 15 alveolus.

Handmade with natural cork, antistatic polymer filling that maintains its core characteristics in environments within -40° and $+50^{\circ}$ Celsius.

We have four types of hardness (Hard, Medium, Soft, Supersoft).

It's a exclusive product with unmatched properties that utilizes the sustainable, ecological and noble material from nature that is cork.

Impermeable, antibacterial, hygienic and extremely soft to the touch are just some of the qualities of this material. This product has great durability and resistance even in abrasive surfaces.

Furthermore, apart being natural and ecological, it presents innovating characteristics in how it behaves during games, allowing excellent performances.

Set composed by 13 balls (6 blue, 6 red and 1 white), supplied with a comfortable cork backpack, with rigid removable interior with 15 alveolus.

SINGLE BALLS

Can also be brought as single balls. Available in blue, red and white.
