

2022 BISFed competitions anti-doping procedures

The below rules and procedures apply to all 2022 BISFed competitions.

HOC responsibility	
The HOC undertakes to follow the anti-doping rules and regulations as laid down in the BISFed Rules and to carry out Anti-Doping tests at its own expense, using the most conveniently located World Anti-Doping Agency (WADA) approved and accredited laboratory.	
The HOC must provide a private area and facilities to allow the designated parties to conduct doping control and sample collection in accordance with the BISFed Anti-Doping Regulations. This area shall be separate from the medical facilities.	
The HOC must ensure that the local National Anti-Doping Organization (NADO) includes the Doping Control Form (DCF) in WADA's ADAMS system within 15 days of the anti-doping control tests.	
Number of anti-doping tests	
Out of competition	2
In competition	4
Procedures	
Out of competition	Out of competition tests occur during the training period
	<ul style="list-style-type: none"> • The two individuals will be drawn from the Top 12 ranked athletes in the World Ranking (as ranked 2 weeks before the competition) present at the competition, in each of the eight individual medal events. • There should be at least 8 athletes in the draw. • Should there not be eight individuals at the competition, the 2 athletes will come from the top 12 ranked in the entry list, from each classification group.
In competition	Selection of athletes will occur during the Semi Final Match and athletes will be notified following their final match.
	One athlete per class is drawn. Female and male athletes from the same class will be in the same testing group.
Sample type	Urine
BISFed Technical Delegate (TD)	The respective BISFed TD is the BISFed liaison on the day of testing and is responsible for arrangements with the HOC regarding doping procedures (e.g. testing day & time)
